

Amendment to the Specification:

On page 2, last paragraph, please replace with the following:

Tele-robots such as hazardous waste handlers and bomb detectors may contain a camera that allows the operator to view the remote site. Canadian Pat. No. 2289697 issued to Treviranus, et al. discloses a teleconferencing platform that has both a camera and a monitor. The Treviranus patent also discloses embodiments with a mobile platform, and different mechanisms for moving the camera and the monitor~~The platform includes mechanisms to both pivot and raise the camera and monitor. The teleconferencing platform disclosed in the Canadian patent is stationary and cannot move about a building.~~

The applicant hereby requests that the Examiner enter this amendment.

Respectfully submitted,
